

## Disabled Adaption Specialist Refurbishment of Bathroom Areas

BEFORE

AFTER

### PROJECT OVERVIEW

#### Background

WC Evans & Sons Ltd were approached by a private customer whose elderly father was struggling for health reasons to use their current bathroom and they were not eligible for a council grant for these works. The customer requested a comprehensive disabled adaption be undertaken to enable him to be more independent and allow for assistance with washing.

#### Solution Provided

WC Evans & Sons Ltd undertook this adaption and provided level access showering facilities along with the refurbishment of a separate toilet area. Due to the success of this project and how impressed the customer was with the results, we have now been approached to install another level access bathroom facility downstairs at the same property, providing further accessibility and support.

**CLIENT** Private Homeowner

**SECTOR** Residential

**LOCATION** Surrey

**SOLUTION** Bathroom Adaption
