

Driveway, Ramp & Crossover

Specialist Access Solution

PROJECT OVERVIEW

Background

WC Evans & Sons Ltd were contracted by the local authority to deliver a specialist access solution for a disabled tenant. The project involved the design and fabrication of a new driveway, an accessible access ramp, and a drop kerb pavement crossover.

Solution Provided

WC Evans & Sons Ltd's in-house expertise and specialist fabrication capabilities ensured a robust, durable solution that was tailored to the resident's specific needs. The completed installation provides safe, off-street parking along with significantly improved access to the property. All works were delivered on time and to exacting standards, demonstrating our ability to provide inclusive, practical solutions that enhance everyday living for residents with mobility challenges.
